CrossFit is designed to help you help yourself. Many health benefits are associated with regular exercise, and the completion of CrossFit is a sensible first step to take if you are planning to increase the amount of physical activity in your life. For most people, physical activity should not pose any problems or hazard. CrossFit has been designed to identify the small number of adults for whom physical activity might be inappropriate or those who should have medical advice concerning the type of activity most suitable for them.

Common sense is your best guide when answering this next set of questions. Please read them carefully and check **YES** or **NO** opposite the question if it applies to you. If yes, please explain in the text box provided.
